Material Safety Data Sheet

N-Octyl-2-Pyrrolidone

Section 1: Chemical Product and Company Identification

Molecular formula: C(12)H(23)NO
CAS Nr: 2687-94-7
EINECS: 403-700-8
Molecular weight: 197.3 g/mol
Chemical family: lactam
Synonyms: 1-Octylpyrrolidin-2-One; 1-Octyl-2-Pyrrolidinone; 1-Octyl-2-Pyrrolidone;
1-N-Octyl-2-Pyrrolidone; N-Octyl-Pyrrolidone; N-Octyl-2-Pyrrolidone;
1-Octyl-2-Pyrrolidinon; 2-Pyrrolidinone,1-Octyl-

Contact Information for Emergency: (0086) 551 65418678

Hefei TNJ Chemical Industry Co., Ltd.
B910~911 Xincheng Business Center, Qianshan Rd. Hefei 230022 China

</tr>
</tbody>
</table>

Toxicological Data on Ingredients: Not applicable.

Section 3: Hazards Identification
Emergency overview

DANGER: CORROSIVE LIQUID.
Corrosive to the skin, eyes and respiratory system.
CAUSES SEVERE BURNS.
RISK OF SERIOUS DAMAGE TO EYES.
INGESTION MAY CAUSE GASTRIC DISTURBANCES.
Avoid contact with the skin, eyes and clothing.
Avoid inhalation of mists/vapours.
Use with local exhaust ventilation.
Wear a NIOSH-certified (or equivalent) organic vapour/particulate respirator.
Wear NIOSH-certified chemical goggles.
Wear full face shield if splashing hazard exists.
Wear chemical resistant protective gloves.
Wear protective clothing.
Eye wash fountains and safety showers must be easily accessible.

Potential health effects

Primary routes of exposure
Routes of entry for solids and liquids include eye and skin contact, ingestion and inhalation. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquified gases.

Acute toxicity:
Ingestion may cause corrosion of the gastrointestinal tract.

Irritation:
Corrosive to the skin, eyes and respiratory system. Skin contact may result in dermatitis and deep burns.

Repeated dose toxicity:
No known chronic effects.

Medical conditions aggravated by overexposure:
Data available do not indicate that there are medical conditions that are generally recognized as being aggravated by exposure to this substance/product.

See MSDS section 11 - Toxicological information.

Potential environmental effects

Aquatic toxicity:
Acutely toxic for aquatic organisms.
Depending on local conditions and existing concentrations, disturbances in the biodegradation process of activated sludge are possible.

Section 4: First Aid Measures
**General advice:**
Immediately remove contaminated clothing. If danger of loss of consciousness, place patient in recovery position and transport accordingly. Apply artificial respiration if necessary. First aid personnel should pay attention to their own safety.

**If inhaled:**
Remove the affected individual into fresh air and keep the person calm. Assist in breathing if necessary. Immediate medical attention required.

**If on skin:**
Wash affected areas thoroughly with soap and water. Remove contaminated clothing. Seek medical attention.

**If in eyes:**
In case of contact with the eyes, rinse immediately for at least 15 minutes with plenty of water. Seek medical attention.

**If swallowed:**
Rinse mouth and then drink plenty of water. Do not induce vomiting. Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions. Immediate medical attention required.

---

**Section 5: Fire and Explosion Data**

Flash point: 142 °C (DIN 51758)
Autoignition: 225 °C (DIN 51794)
Lower explosion limit: 1.1 % (V)
Upper explosion limit: 7.1 % (V)

**Suitable extinguishing media:**
water, dry extinguishing media, foam, carbon dioxide

**Hazards during fire-fighting:**
No particular hazards known.

**Protective equipment for fire-fighting:**
Firefighters should be equipped with self-contained breathing apparatus and turn-out gear.

**Further information:**
If exposed to fire, keep containers cool by spraying with water.

**NFPA Hazard codes:**
Health: 3 Fire: 1 Reactivity: 0 Special:

---

**Section 6: Accidental Release Measures**
**Personal precautions:**
Wear appropriate respiratory protection. Use personal protective clothing. Ensure adequate ventilation.

**Environmental precautions:**
Do not empty into drains.
This product is not regulated by RCRA. This product is not regulated by CERCLA ('Superfund').

**Cleanup:**
Spills should be contained, solidified, and placed in suitable containers for disposal.

---

### Section 7: Handling and Storage

**Handling**

**General advice:**
Ensure thorough ventilation of stores and work areas.

**Protection against fire and explosion:**
No explosion proofing necessary.

### Storage

**General advice:**
Containers should be stored tightly sealed in a dry place.
No special precautions necessary.

**Storage incompatibility:**
General: Segregate from acids and acid forming substances.

**Storage stability:**
Storage temperature: 20 °C
Storage duration: 24 Months
May yellow after lengthy storage.

---

### Section 8: Exposure Controls/Personal Protection

**Advice on system design:**
Provide local exhaust ventilation to control vapours/mists.

**Personal protective equipment**

**Respiratory protection:**
Wear a NIOSH-certified (or equivalent) organic vapour/particulate respirator. Do not exceed the maximum use concentration for the respirator facepiece/cartridge combination. For emergency or non-routine, high exposure situations, use a NIOSH-certified full facepiece pressure demand self-contained breathing apparatus (SCBA) or a full facepiece pressure demand supplied-air respirator (SAR) with escape provisions.

**Hand protection:**
Chemical resistant protective gloves, Consult with glove manufacturer for testing data.

**Eye protection:**
Tightly fitting safety goggles (chemical goggles) and face shield.

**Body protection:**
Body protection must be chosen depending on activity and possible exposure, e.g. head protection, apron, protective boots, chemical-protection suit.

**General safety and hygiene measures:**
Wear protective clothing as necessary to prevent contact.

Section 10: Stability and Reactivity Data

Conditions to avoid:
No data available.

Substances to avoid:
acids, bases

Hazardous reactions:
No hazardous reactions if stored and handled as prescribed/indicated.
The product is chemically stable.

Decomposition products:
Hazardous decomposition products: carbon monoxide, carbon dioxide, nitrogen oxides Corrosion to metals: No data available.

Section 11: Toxicological Information

Skin irritation:
Rabbit: Corrosive. (OECD Guideline 404)

Eye irritation:
As the product corrodes the skin, it can be expected to have a similar effect on the eyes also.

Sensitization:
Guinea pig maximization test/guinea pig: Skin sensitizing effects were not observed in animal studies.

Chronic toxicity

</tr>
</thead>
</table>

Other ecotoxicological advice:

Do not release untreated into natural waters.

Section 13: Disposal Considerations

Waste disposal of substance:

Do not discharge into waterways or sewer systems without proper authorization.

Dispose of in accordance with national, state and local regulations.

Container disposal:
Dispose of in a licensed facility. Recommend crushing, puncturing or other means to prevent unauthorized use of used containers.

### Section 14: Transport Information

#### Land transport
**USDOT**
Proper shipping name: CORROSIVE LIQUID, N.O.S. (contains 1-OCTYL-2-PYRROLIDINONE)
Hazard class: 8
ID number: UN 1760
Packing group: III

#### Sea transport
**IMDG**
Proper shipping name: CORROSIVE LIQUID, N.O.S. contains (1-OCTYL-2-PYRROLIDINONE)
Hazard class: 8
ID number: UN 1760
Packing group: III
Marine pollutant: NO

#### Air transport
**IATA/ICAO**
Proper shipping name: CORROSIVE LIQUID, N.O.S. contains (1-OCTYL-2-PYRROLIDINONE)
Hazard class: 8
ID number: UN 1760
Packing group: III

### Section 15: Other Regulatory Information

#### Federal Regulations
**Registration status:**
TSCA, US released / listed

**OSHA hazard category:** Acute target organ effects reported, Corrosive to skin and/or eyes

**SARA hazard categories (EPCRA 311/312):** Acute
