Technical Data Sheet

Ethyl triphenylphosphonium iodide

Product Information

Chemical Name	Ethyl triphenylphosphonium iodide
CAS #	4736-60-1
Formula	C ₂₀ H ₂₀ IP
Molecular Weight	418.25
Synonyms	Ethyltriphenylphosphonium iodide
Chemical Structure	

Description

It is light yellow to off-white powder

Physical Properties

Melting point, °C .	164-168
Boiling point, ° C	337
Flashi point, °C	226
Water Solubility	Slightly soluble

Specification

Item	Specification
Appearance	Light yellow to off-white powder
Assay (on dry basis), %	≥ 98.0

Safety

Always refer to the Material Safety Data Sheet (MSDS)

Applications

Epoxy curing agent

Packaging

25kg per fiber drum

Storage & Handling

Do not store in direct sunlight. Store in a tightly closed container.

Store in a cool, dry, well-ventilated area away from incompatible substances.

Wash thoroughly after handling. Use with adequate ventilation. Minimize dust generation and accumulation.

Avoid breathing dust, vapor, mist, or gas. Avoid contact with skin and eyes. Keep container tightly closed.

Avoid ingestion and inhalation.

Always refer to the Material Safety Data Sheet (MSDS) for detailed information on handling and disposal.

The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchant ability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigations to determine the suitability of the information for their particular purposes. In no event shall we be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, howsoever arising, even if we has been advised of the possibility of such damages.
